MCM HOUSE

FURNITURE MEASURING GUIDE

1. CHECK PRODUCT DIMENSIONS

- Our website provides width, depth and height for every piece of furniture.
- Furniture width must be less than the height of any doorway, stairway or hallway that the item will need to pass through.
- Furniture is measured at the tallest, deepest and widest points of the product. This includes arms, overhangs, and feet!

2. MEASURE YOUR SPACE

Identify where you intend to place your furniture and make sure
it will fit in the space that you have chosen. Consider marking out
the width and depth of your furniture on the floor with painters
tape, books, or anything else that will give you an idea of scale.

3 MEASURE THE PATH FOR DELIVERY

- Measure the heights and widths of entryways and hallways both inside and outside your home
- Measure your entry clearance the distance from the wall, through to the doorway to the opposite wall.
- Factor in ceiling height, stairways, banisters, corners, and low hanging lights
- Determine the best pathway from outside your home to the room where your new piece will be placed. Please be sure to account for any achitectural details when taking measurements.

DOORWAYS

- Measure the width and height of all
- How wide can your door open?
- Check for architectural details that may affect access

STAIRWAYS

- Measure the width of stairway including handrails or posts
- Measure the height from top and

HALLWAYS

- Measure the width of hallways
- Look for any low hanging lights or

4. PLEASE NOTE

- It is your responsibilty to ensure that all furniture items will fit through any access points. You will be charged the full delivery fee if your furniture can not be delivered due to poor access.
- MCM House also offer a professional site inspection (Sydney Metro only) where our team will come out to inspect and measure your site access. The cost for this service is \$60 and is redeemable if you move ahead with your order. To book an inspection, please contact the MCM Service team via service@mcmbouse.com
